

3G Phone

Fixed Wireless Phone

The TelecomFM 3G Phone is a fully featured Fixed Wireless Phone that provides access to 3G and 2G networks.

The 3G Phone provides the end user with Voice and High Speed data over the wireless network while offering the reassurance of a robust, high quality desktop telephone.

User experience is further enhanced with the ability to dial Contacts directly from within Microsoft Outlook and with 2-way synchronisation between the phonebook in the telephone and the Microsoft Outlook contact list.

An integrated battery backup ensures that the services offered by the telephone are always available.
